ecosteryl

AMB Ecosteryl

Serial 500

Dimensions

17,5 m length x 4 m width x 5,5 m high

Weight

20 tons

Treatment type

Pre-shredding with core-heating microwave disinfection technology

Type of process

Automatic continuous process

Processing capacity

500 - 600 kg/hr

Emissions

Zero emission

Energy consumption

100 kw (20° C at 1 atm)

Effectivness

More than 6log10 disinfection

Required floor space

26 m x 8,5 m (7,5 m height)

Manpower requirements

No specialized operator / 1 operator

Assembly and start-up

One day assembly - start-up & training with our engineers

About Us

AMB has over 15 years experience in the industrial processing of medical waste. The company developed four patented ecofriendly medical waste processing systems, using continuous microwave technology.
